

### **Pathway and Outcomes Day (November 2025)**

This year we had an extremely successful and well attended Pathways and Outcomes event, with parents from years 7-13 in attendance.

The transitions team explored destination data as well as referring to the provider access legislation and SEND local offer website. As a result, we invited various destination providers post 16/19 as well as Health, Adult Social Care, Travel training and Transition & Preparation for Adulthood Service.

Learners who attended the event had research booklets to complete at the event, which supported engagement between learners and the providers in attendance. Learners were able to ask key questions at the event and then refer back to their booklets as a way of helping to make informed choices about their future.

Feedback from external providers was that they particularly enjoyed the session when learners came in and they were able to engage with groups of learners through the resources provided.

### **Comments from External Agencies:**

“Great event. Very organised with lots of family engagement”

“Timings of the day were excellent and the number of parents showing a real interest”

“There was a diverse number of students and parents/carers. Having students come in was particularly welcome”

“Lovely welcoming staff, great atmosphere and engaged parents. Overall a fab event”

### **Comments from parents:**

*“A very informative event. I am glad I attended as it has put my mind at ease about what the future holds for my son”*

*“Very informative and we were impressed by the different organisations that attended and provided information at this event”*

*“This is the first time I attended. Thanks for arranging this event. It makes the life of a parent so much easier to know what is out there for our young person.*

*Well organised and delivered.”*

**Parental evaluation form feedback:**

From the parental evaluations we received, all parents agreed that:

*The agencies were easy to talk to and parents felt listened to*

*The things discussed were important to them/son/daughter*

*The event helped parents to think more about what options are available Post 16/19*

*The event has helped them to make decisions about what to do next.*

A big thank you to all who attended the event. The Careers Leader and Transitions team will be available at future coffee mornings and bespoke events, for further information and guidance.
