

At Calthorpe Academy, we believe great futures are built through partnership.

Our post 16 consultations are the first step in co-producing a personalised plan that supports your young person to prepare for adulthood, independence and a life of choice and opportunity.

Your knowledge. Our expertise. Your future together.

CO-PRODUCTION: AT THE HEART OF WHAT WE DO

We listen to your young person, you and our staff to understand strengths, interests and aspirations.

Together we set meaningful goals and identify the support needed to achieve them.

We plan for adulthood – focusing on independence, work, wellbeing, community participation and living a fulfilling life.

This shared approach leads to confident decisions and the best possible outcomes.

WHAT IS THE INITIAL CONSULTATION?

The initial consultation is an important conversation between home and school.

It is an opportunity for us to:

- Get to know your young person and your aspirations for their future
- Share information about strengths, needs and interests
- Explore pathways, work experience and future opportunities
- Discuss independent living, travel training, health and wellbeing
- Plan next steps together

Your insight is invaluable – together we create a plan that prepares for adulthood.
